

2020 NY44/ Pharmacy Benefit Dimensions Drug Formulary

This Drug Formulary represents the list of drugs and their appropriate copayment tiers for members of the NY44 Health Benefits Plan Trust.

Note: If you are reading a printed version of this drug formulary, content may have been updated since it was last printed. For the most up-to-date information, please visit www.pbdrx.com.

Drug Formulary Introduction

- Generic drugs appear in lower case. Brand name drugs are capitalized. This formulary lists all covered Tier 1 and Tier 2 drugs, but only lists representative products in Tier 3.
- Formulary/preferred generic drugs and select Over the Counter (OTC) and select Brand Name drugs listed on the Formulary are assigned to copay Tier 1. The formulary follows a “Mandatory Generic” policy which means that in most instances, once a generic product is available for which there are no bioequivalence concerns, the branded product is assigned to Copay Tier 3, and the generic product is assigned to Copay Tier 1. Certain non-preferred generic drugs may also be covered in the 3rd tier when efficacy, safety or cost factors suggest that better alternatives exist on the formulary. Not all tier 3 non-preferred drugs are listed in the formulary. For members with a 3 tier plan, most drugs not listed may be obtained, but the member will be responsible for their third tier copayment.
- Pharmacy Benefit Dimensions reserves the right to modify the copay tier of a particular drug as necessary. For example, the copay tier of a brand drug will be raised from Tier 2 to Tier 3 when a generic drug becomes available (the generic drug will be placed in copay Tier 1). The copay of a brand drug may be lowered from Tier 3 to Tier 2 if the generic equivalents are discontinued or no longer available.
- Some medications are considered non-formulary (not covered). To obtain a medication that is non-formulary your health care provider is encouraged to submit a prior authorization request for coverage through the exceptions process. If the request is approved, that particular medication will be covered at your Tier 3 copayment/coinsurance level.
- Certain self-funded employer groups may not follow this base formulary. Members in these pharmacy benefit management groups should refer to their summary plan description and/or their benefit administrator. Specific drugs may be Preferred Brand or Non-Preferred Brand based on individual group’s benefit design.

Prior-Authorization

Prior Authorization is required for certain medications. To obtain coverage for a medication requiring prior authorization, a prior authorization request for medical exception must be submitted by your health care provider and approved by us. Medications that require prior authorization are listed with a “PA” in the formulary.

Step Therapy

In some cases, you may be required to first try certain medications to treat your medical condition before we cover another medication for that condition. Step therapy is a way to help you get the best quality and value from your prescription medication benefit. This usually means that an equally effective generic medication is prescribed before a more expensive brand-name medication. Step therapy may also ensure that two medications are used together if they are more effective. Medications that require step therapy are listed with a “ST” in the formulary.

Quantity Limitations

Quantity limitations may apply to certain medications. Some medications are covered up to a specific quantity per 30 or 90 days. Some examples of medications with a quantity limitation are: sumatriptan (generic Imitrex®) and zolpidem tartrate (generic Ambien®). Medications with quantity limitations are listed with a “QL” in the formulary.

Specialty Medications

Specialty medications can include but are not limited to those that are either self-injectable, require special distribution, handling and/or are in limited supply and certain oral oncology medications. Specialty medications are listed with an “SP” on the formulary.

Limited Access Medications

Limited access medications are restricted to designated pharmacies. Limited access medications are listed with an “LA” on the formulary.

Reliance Rx

Reliance Rx, Pharmacy Benefit Dimensions’ preferred specialty pharmacy, specializes in the highest quality patient-centric care for individuals with chronic conditions such as hepatitis, multiple sclerosis, cancer and rheumatoid arthritis. The majority of specialty medications and limited access medications are required to be filled at Reliance. Reliance Rx also provides a convenient way for you to receive the medication, by arranging delivery at no charge directly to your home. They can also provide you with education on the medication you’re taking, refill reminders and even the necessary supplies, if applicable and available.

Please contact Pharmacy Benefit Dimensions Member Services or Reliance Rx to determine where you need to obtain your medication. Pharmacy Benefit Dimensions Member Services can be reached at (716) 635-7880 or toll-free at 1-888-878-9172. Reliance Rx can be reached at 1-800-809-4763.

Age Restriction

Some prescription medications are restricted by age due to safety reasons or Food and Drug Administration (FDA) recommended labeling. Medications with an age limit are listed with an “AL” in the formulary.

Maximum Daily Dose (MDD)

Certain medications are dose limited by a maximum daily dose (MDD) as recommended by the Food and Drug Administration (FDA) for safety reasons. Limits may be set by the number of tablets/capsules per day or the total daily dose.

Maintenance Medications

Pharmacy Benefit Dimensions allows up to a 90-day supply of certain medications to be filled. Medications eligible for up to a 90-day supply are listed with an “MO” on the formulary. If a generic medication is listed as maintenance on the drug formulary, and the brand name equivalent is non-formulary; the brand name equivalent will be maintenance and allowed for up to a 90-day supply if a formulary exception is approved for the brand name drug.

Over-the-Counter (OTC) Medications

Certain medications listed in the formulary are available over the counter. A prescription is required for coverage of the OTC products.

Sedative/Hypnotic Medications

Sedative/hypnotic medications are limited for all prescribers except sleep specialists to 14 tablets/capsules per month with a maximum of 3 fills per year (3 fills/365 days).

Compounded Prescription Medications

Compounded prescriptions (medications that are not commercially manufactured) must be prepared by a participating pharmacy and contain at least one prescription component. The dispensing pharmacy is required to submit for prior approval and when covered the compounded prescription will be available at a Tier 2 copayment/coinsurance. Coverage is provided in accordance with our Compounding Medication Products Policy. Bulk products and powders are excluded from coverage because they are not prescription medication products that are approved under sections 505, 505(j) or 507 of the Federal Food, Drug and Cosmetic Act.

Diabetic Supplies/Medications

OneTouch blood glucose meters, lancets, test strips, and supplies are our preferred diabetic supplies and do not require Prior Authorization. Test strips are limited to 100 strips per 30 days, for up to a 90-day supply. BD needles and syringes are our preferred needle/syringe products. BD needles and syringes are our preferred needle/syringe products. Copayments vary by plan.
